Errors Which Cause Delays

- Our system is not fully automated per say as if you were buying online from Amazon, there are people in the background verifying information and processing your payment.
- Check your junk email folder to make sure emails from Camrose Shooting Sports Association are not sitting there.

2026 Online Membership Guide (Oct 2025)

Errors Which Cause Delays (continued)

- We need your completed signed and witnessed waivers, 2026 application and payment to process your 2026 membership. Missing information causes delays.
- Use your actual mailing address – where you get your mail, not your street address if different. Gate/swipe cards with invalid mailing addresses are returned by Canada Post to our post office box which is checked every Friday only. This causes delays for members as you need your gate/swipe card to access the outdoor range.
- We will attempt to contact you by email reminding you that we require the missing information, after that the onus is on the member to complete the application.
- Our goal is to process fully completed memberships within 48 hours. Fully completed applications are completed first, processing time may vary depending on the current application volume being processed.

Outdoor Range Access Problems

It happens from time to time that a member with a valid current year membership cannot access the range with their gate/swipe card. Reminder that you will need to be in possession of both your 2026 paper membership card and gate/swipe card so either Werner or Glen can assist you.

Their cell numbers are posted outside the gate so we can fix most problems while talking to you on your cell phone at the gate.

Member Support

We understand that not all members are comfortable with computers or online purchasing.

If you need help, please do not hesitate to contact Candace. She will be checking emails multiple times during the day Monday through Friday candace@managewise.ca
